

PERFORMERS EXCITED ABOUT THE RENOVATED THEATER

Pictured: View of the renovated auditorium.

The Auditorium underwent a 'facelift' in 2007 when new sound boards and wall lighting were installed and the stage received attention with a new computerized lighting system. This summer the Auditorium received a second "facelift." The space is currently undergoing the final touches on this major renovation.

"I am thrilled to be beginning my tenure as Montini's new Theater Director in the beautifully renovated auditorium. It's going to be a great space for productions and I can't wait for the students to perform in their new space," said Mrs. Beth DiMarco. First up on the stage will be a production of "1984," based on the 1949 novel Nineteen Eighty-Four by George Orwell.
