

Dear Montini Community:

Quest Food Management Services is excited to announce that the cafeteria will be re-opening this fall and offering all your favorite meal items! We will be offering all the food station lines and offering both breakfast and lunch. The Quest Team is back and busy preparing menus that support our fresh, made from scratch, high quality dining program.

Be assured the staff will be following all the CDC guidelines required by the state of Illinois as we fully reopen. At the time of this letter the Illinois State Board of Education has not issued any guidelines related to foodservice this Fall. Continued communication will be forthcoming as it relates to any changes.
