

# Summer Assignments for Anatomy & Physiology

**Required Books:** At the beginning of the school year, you will be required to pay for and sign up for Pearson in order to do the online content of this college course.

You will be responsible for the following types of assignments throughout the summer (keep in mind this summer material is review of what you already learned from previous courses or is material that is relatively simple to learn):

1. Reading and taking notes on the following chapters:

Chapter	Description (Unit 1)	Chapter	Description (Unit 2)
1A	Organ System Overview	2	Chemistry of Life
1B	Planes, Directions and Anatomic Terms	4	Cells and Tissues

2. During the summer, you will be using PowerPoints and associated videos to learn the summer material. At the beginning of the school year, you will pay for and sign up for Pearson so you can access the book and online assignments..
3. Reading quizzes done on Schoology at home for each chapter by the due date/time throughout the summer.

If you have questions, or need clarification, you may do one of the following:

1. email me at [lmisialek@montini.org](mailto:lmisialek@montini.org). It is important that you begin the **subject heading "A & P"**. Without doing so, I will delete your email without opening it.
2. call me on my cell phone: (630) 383-6280

## **Assignments for the Summer:**

**It is imperative that you look on Schoology for assignments that are due during the summer.** You MUST log in and do them. Remember, you will sign up for Pearson in the fall when we start school. You will then do assignments on Pearson.com.

All summer assignments for this course have now been assigned. There are 4 main due dates for assignments to be completed during the summer (2 are in June and 2 are in July).

## **The following is a tentative Lesson Guide for the first week of school:**

The first few days of the school year will be for review of the concepts you refreshed yourself with over the summer. During the second week of school, will be your first midterm exam and lab practical covering the summer assignments.
