

## SENIOR RECEIVES PHYSICIANS AWARD

*Pictured: Senior Joel Camba*

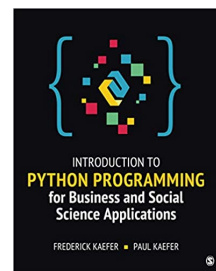

Senior Joel Camba, was awarded the National Academy of Future Physicians Award of Excellence. The organization's primary founding principal is to recognize and reward high-achieving students dedicated to medicine or the STEM subjects. The award comes on the heels of Joel's representation of Montini Catholic and the State of Illinois at the Congress of Future Medical Leaders in Boston Massachusetts (as a junior in 2019).

To be considered for Congress Delegate, Joel was required to meet specific criteria - having an aspiration to become a physician, scientist or technologist, possessing strong leadership potential and achieving a GPA of 3.5 or above (current or cumulative).

Although he has not yet confirmed his college choice, Joel currently has plans to major in Chemistry and to pursue a career in Neuro Optometry (focusing on the rehabilitation of visual/ perceptual/motor disorders. Joel explains that his interest in the field was sparked while undergoing therapy for his own eyes. "My therapist really got me interested in this particular field."

Joel credits his younger sister for his initial interest in medicine. "She was born with Down Syndrome and I have been given a lot of motivation to do well in school from her." He has also been greatly inspired by his father (Dr. Noel Camba, MD), a cardiologist. "He has shown me the wonders of medicine. He helps save lives every day, and he has shown me that even a smile can make a patients' day!" Joel has felt great inspiration as well from his Montini teachers noting that each one of them have encouraged him to always do his best as a student.

As a Bronco, Joel enjoys being a member of the Soccer and Baseball teams. He is also a member of Montini's Robotics, Book and Spanish Clubs and competes with local schools as a member of the Math Team. He is a member of the National Honor Society, the Spanish Honor Society and Mu Alpha Theta (Math) Honor Society.

### Bronco Business Highlight

This week's highlighted Bronco Business is **Norkol Converting Corporation**, owned by the Kolinski Family (Larry Kolinski '75). Norkol was established in 1968 to provide quality printing papers to commercial printers, publishers, and catalogs both domestically and internationally. Since their inception, Norkol has diversified to include Commercial Printing & Packaging, Industrial Packaging, Flexible Packaging, and Non-Wovens as target segments. Norkol has facilities in Northlake IL, Mesquite TX, and Newark DE. Visit [Norkol, Inc.](#) to learn about their business and operations.

Have a favorite Bronco Business that we should highlight? Email [alumni@montini.org](mailto:alumni@montini.org) with suggestions.

### Teaching Textbook Published

Alumni parent, Fred Kaefer and his son, Paul Kaefer '09 recently published "Introduction to Python Programming for Business and Social Science Applications," a teaching textbook.

Frederick Kaefer is an Associate Professor of Information Systems at the Loyola University Chicago Quinlan School of Business. He has taught computer programming and other information systems courses to business students for over 25 years. Paul Kaefer works as a Senior Analytics Engineer at Carrot Health and has instructed two data analytics & visualization bootcamps through Trilogy Education Services. After earning a Bachelor's degree in Computer Engineering, he earned a Master's degree in Computational Sciences while leading the Data Analysis Team for the GasDay project, a research lab at Marquette University that works with energy utilities around the United States to forecast natural gas demand.
